

UE Videoverarbeitung Winter Term 2011

Exercise 4

1) General Task

The goal of this exercise is to produce a short movie (3-5 minutes) which gives the impression of being produced in the 1920s. The genre of the movie is up to you, possibilities are f. e. comedy, science-fiction, romance, horror, cartoon, advertisement, etc. You can use any footage or sources. The only limitation is that the source material should not be older than 40 years and that it has to be in color.

Edit the movies with the implemented filters, special effects and damages. You don't have to use all of the filters but the result should look authentic. Moreover the story of the film should be clear and understandable. Keep in mind that movies from the 1920s didn't support speech so plan your story carefully and use text insertions for storytelling. However you can background music. Look at the example movies listed at the end to find out which kind of music was used.

2) Submission

The deadline for exercise4 is **16.1.2012**.

The submission must include:

- The final short movie which gives the impression of being produced in the 1920s.
- A text file, where you list all of the footage you have used. The file should look the following way:
"title of the footage, year of the production", so f. e:
Terminator 2 - Judgment Day, 1991
Predator, 1988
...

All files have to be uploaded as a .zip file (UE_GROUPx_EXERCISEy.zip) on TUWEL. Only one submission is needed per group.

3) Movie Flashback Event

All of your produced movies will be presented at a movie flashback event. The exact date of this event will be published on TUWEL at the beginning of January. **Attendance** at the movie flashback event is **mandatory**!

4) Examples

Nosferatu:
